Haskell Introduction

About Haskell

Preston Haskell played an instrumental role in the formation of the Design-Build Institute of America (DBIA). In 1993, design-build was still considered "nontraditional". However, Haskell and his peers reasoned that design-build backers needed an organization to represent the interests of design-builders.

Corporate Safety Performance

Our mission and expectations are clear.

Maintaining a safe and healthy work environment is of prime importance to Haskell. We develop a Project-Specific Safety Plan tailored for each individual project.

Haskell consistently ranks among the AEC industry top 5% for Safety Performance. In 2016, Haskell's 'Recordable Incident Rate (RIR)' was 0.24, garnering recognition by America Contractors Insurance Group (ACIG) as the No.1 ranked member in overall safety performance.

(Haskell Malaysia & Singapore Occupational Health & Safety Management System are BS OHSAS certified)

Quality

Our Quality Program is focused on assuring predictable quality outcomes on our projects, to further enhance customer satisfaction. Haskell uses project specific Quality Implementation Plans (QIP) to document and achieve quality expectations.

WE GET IT "RIGHT THE FIRST TIME"

- Design Phase
- Quality Risk
- Construction Phase
- Closeout Phase
- QIP Sheets
- Take 5-Safety Sheet

Haskell Malaysia & Singapore Quality Management System are ISO 9001 certified

Sustainability

COMMITMENT TO SUSTAINABLE FACILITIES

Haskell has LEED Certified Projects across all market sectors. Our focus is on consolidation, sustainable operations and green innovation.

Delivering Success for our Clients

26 OFFICES GLOBALLY

GLOBAL REACH, LOCAL PRESENCE

- Headquartered in Jacksonville, FL, USA
- 20 offices in the US
- 1 office in Mexico City

APAC Offices:

- Malaysia (APAC HQ)
- Singapore
- Philippines
- China
- Vietnam

PEPSICO PLANT - SINGAPORE

VARIETY OF DELIVERY SOLUTIONS

- Engineer Procure Construct (EPC)
- Engineering Design
- Program Management
- Design & Build
- Construction Manager at-Risk

Benefits:

- Single point of contact
- Faster speed to market
- Lower overall project cost
- Improved quality
- Reduced risk

VIRTUAL REALITY DEMONSTRATION

INNOVATIVE DESIGN AND CONSTRUCTION TECHNOLOGIES

- Procore for Project Management
- Virtual Construction Technologies:

- Laser Scanning
- 3D Printing
- VR/AR
- Virtual Collaboration
- Tablet/Document Interface
- Streaming videos

Deep rooted in our culture

CULTURE OF SUCCESS

- Haskell culture is responsive, entrepreneurial and collaborative.
- We do it right the first time!
- Our core values:
 - Team
 - Excellence
 - Service
 - Trust

INCIDENT FREE WORKPLACE

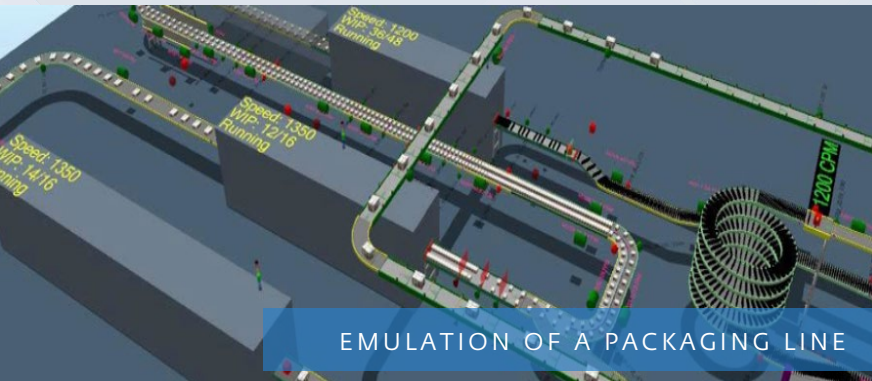

- Haskell consistently ranks among the AEC industry top 5% for Safety.
- Haskell 2018 statistics:
 - Recordable incident Rate: 1.01
 - Lost Workday Case Rate: 0.29
- Haskell Malaysia and Singapore are ISO and OHSAS certified

WE ARE ONE WITH THE COMMUNITY!

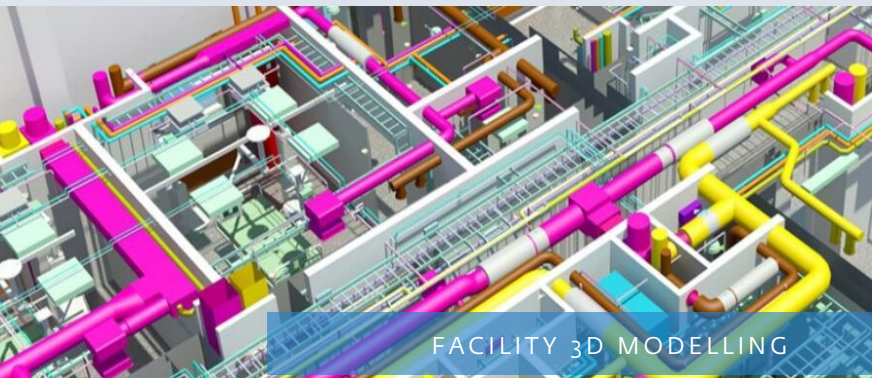

- In 2017, the Haskell committed 26,000 hours for community service.
- In 2018, Haskell Malaysia started a project called 'Kampungku' to provide solar panels and sustainable light sources to the aboriginal community

Innovative Services

PACKAGING ENGINEERING EXPERTISE

- Focused on Packaging and Material Handling Systems
- Services provided:
 - Material Handling & Distribution
 - Automation & Controls
 - Simulation and Emulation
 - Systems Analytics
 - Manufacturing Consulting
 - Engineering Management
 - Project Management

3D MODELLING CAPABILITIES

- In House team of 3D Modelers
- Softwares used: Revit & Aveva
- Benefit:
 - Risk Reduction
 - Greater Cost & Schedule Certainty

FACILITY AUDIT SERVICES

- Assess the facilities physical condition and identify deficiencies that impact safety, productivity and reliability.
- Services: Due Diligence, Audit, Laser Scanning
- Scope:
 - Civil
 - Architectural
 - Structural
 - Mechanical
 - Electrical
