

Consciously Building with Emerging Technologies

Corporate Brochure

CONSCIOUS EMERGENCE

ABOUT CONSCIOUS EMERGENCE TECH ARM

Mission:

To consciously maximize one's untapped potential for tech community-at-large.

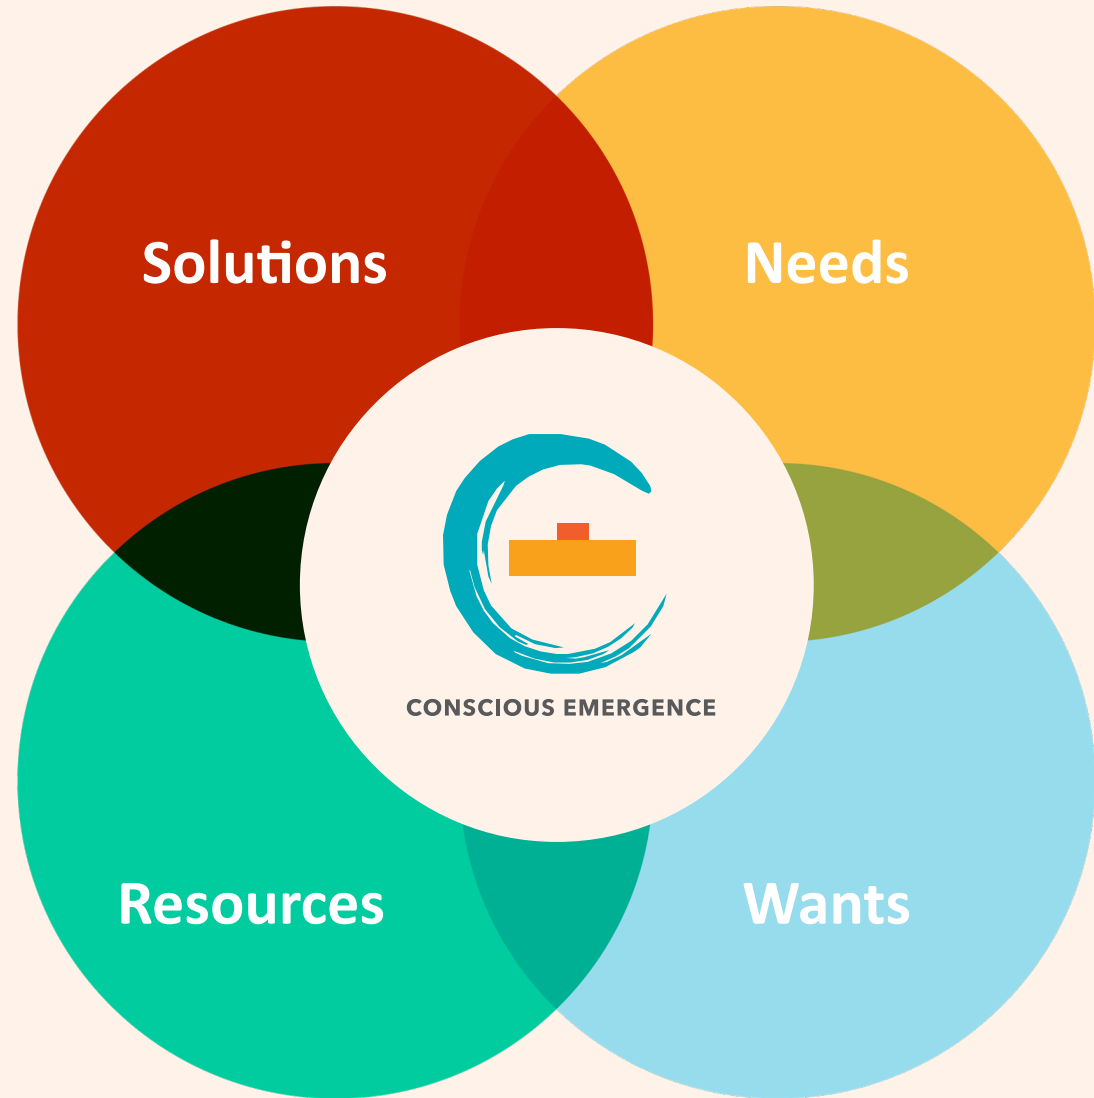

Vision:

To digitalize all companies to be conscious and achieve their greatest potential.

TECHNOLOGY FRAMEWORK™ OUR SUCCESS FORMULA

The Conscious Emergence
Technology Framework™
looks at the technology
ecosystem in 4 components
which are interlinked into
each other.

OUR COMMITMENT

True to our promise “Value, Credibility & Trust”

We ensure our products and services provide the promises that we delivered.

We have worked with clients and partners from low to high ends and has delivered satisfactions to all our clients. We practice professionalism and ensure our customers receive full support of our service.

Tech Dev. Service (Machine Learning & AI)

Unleash your brand's potential with our cutting-edge web & tech services.

We craft stunning websites, powerful mobile apps, and digital strategies that drive results.

UI/UX Design

Imagine you're building a house. UI/UX is like designing both the blueprint (UI) and the living experience (UX). The blueprint ensures it's solid and functional, while the living experience focuses on making it comfortable, enjoyable, and easy to navigate.

The key benefit of UI/UX Design is to enhance product usability and accessibility.

Developer Integration

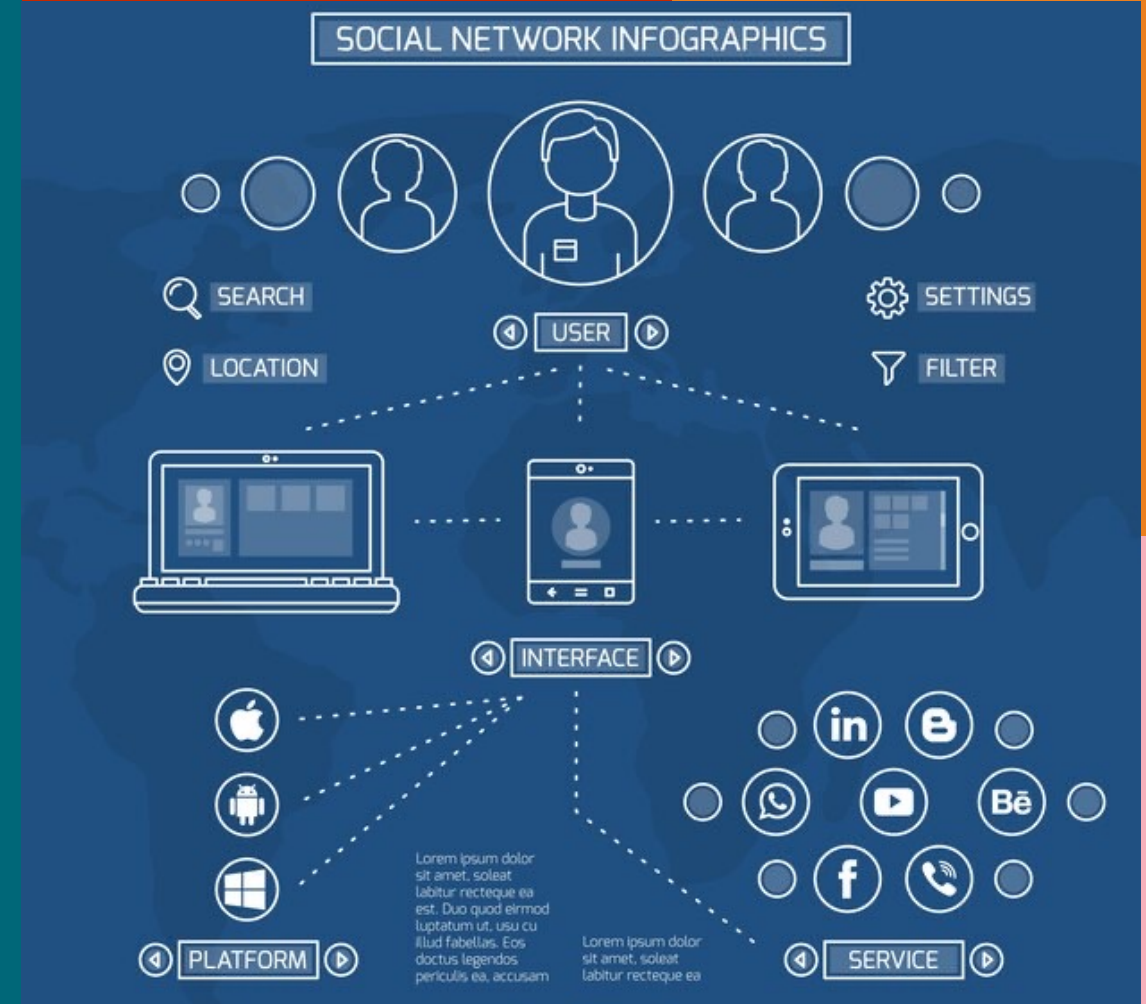

Developer integration focuses on the process of seamlessly connecting developers and their work within a larger team or organization. It encompasses Technical Integration, Team Collaboration and Communication, Workflow and Process Integration, Knowledge Sharing and Culture.

Social Media API Integration

Social Media APIs are powerful tools that unlock the potential of online communities. They let us extend the reach of our voices, create innovative experiences, and gain valuable insights from the vast ocean of social data.

Social Media API Integration is about breaking down boundaries and fostering connections. It's about making the online world feel more like a vibrant community, where you can share your thoughts, experiences, and passions with ease.

Cybersecurity Assessment

Cybersecurity assessments are like health checks for your digital defenses. They identify vulnerabilities and weaknesses in your systems and data, helping you prioritize fixes and build stronger defenses against cyberattacks.

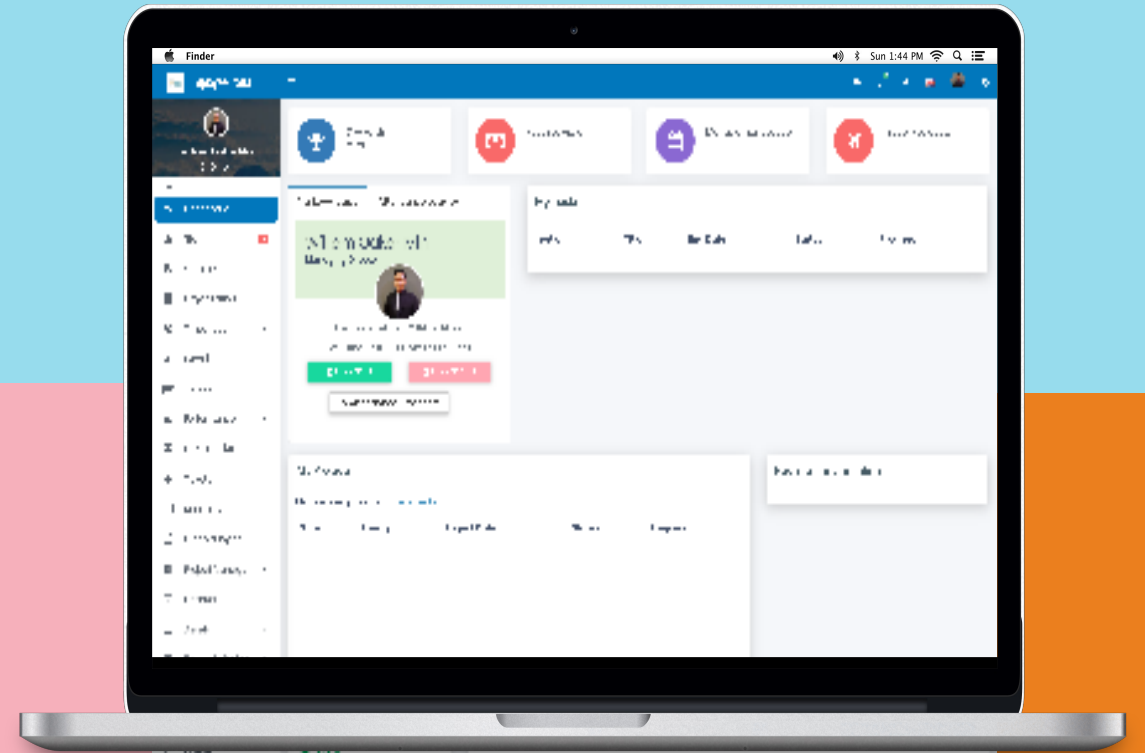

Think of it as a roadmap for improving your online security posture, one step at a time.

Point: Complete ERP System

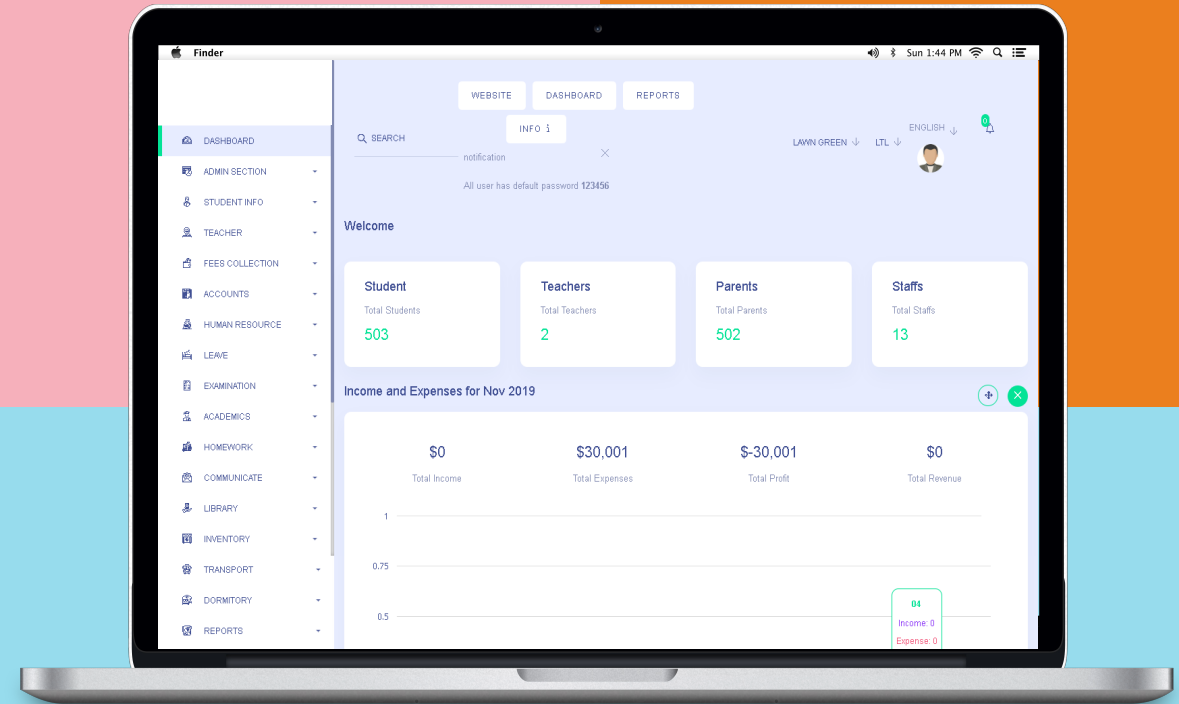

Point is a powerful and cost-effective ERP platform which ensure that our customers get the best for their companies' operation.

Combine with Project Management features and timely solutions, it allows businesses to be more efficient and consolidate employee's information into one intuitive ERP system.

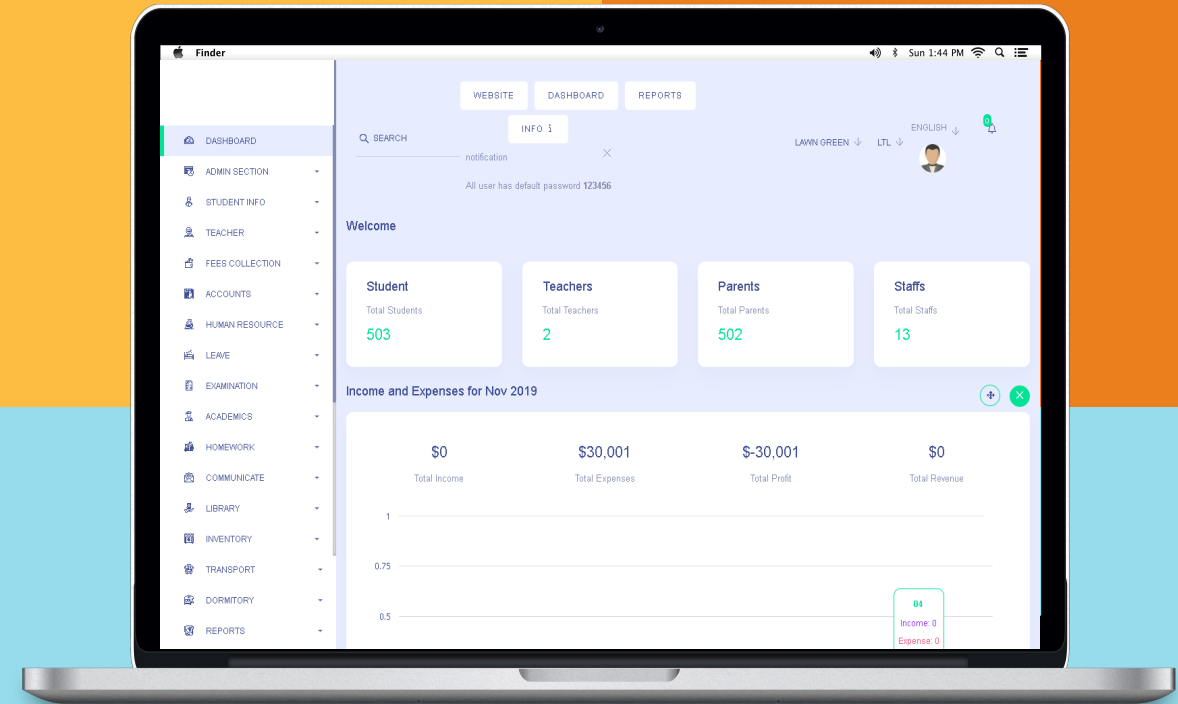

SS: Smart School Management System

SS School management System is an advanced, robust and automated school management software developed to suites every schools or any education institutions from both public or private sectors.

SS: Learning Management System

SS Learning Management System is an advanced, robust and automated management software developed to suites every schools or any education institutions from both public or private sectors in terms of customizing their relevant requirements and specifications to best meet students' learning needs.

OUR WORK PROCESS

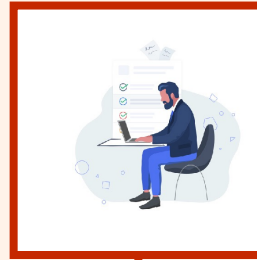

Step 1: Discuss

In this stage, we discuss with the clients on their requirements from their needs to their wants to gather the necessary information to formalise a proposal.

Stage 2: Strategy & Concept

By this stage, the client will receive our formal proposal on the strategy and the concept to meet their requirements and allow to have further discussion before signing off the official contract.

Stage 3: Development

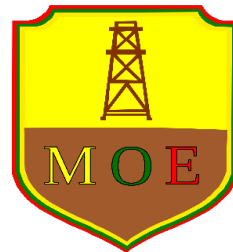

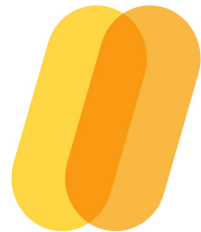

During this stage, upon the receipt of the signed contract by both parties, we will proceed with the development, along with the kick-off meeting to fine-tune and meet their specific needs.

Stage 4: Handover

At the end of this stage, once the requirements are met and it meets the client's needs, we will start by handing over the completed solution.

OUR CLIENTS

OUR PARTNERS

pacewisdom

MR GERALD ONG

Founder / Chief Executive Officer

Mr Gerald Ong, is the Founder / Chief Executive Officer of Conscious Emergence Pte Ltd. He handles the consultancy portion of our technology arm and will help you size up your requirements for your technological and digitalisation pursuits.

At the start of his sales career, he was a Sales Engineer before becoming a Financial Sales Consultant. Following which, he became a Freelance Enrichment Instructor, teaching in the areas of Robotics and Coding for Code-for-Fun Programmes in Singapore.
